There are 250,000 shares of treasury stock, of which a limited number are offered at 15 cents per share, subject to address.

TOOMEY CREEK DEVELOPMENT.

The Toomey Creek Oil Land and De-

The Toomey Creek Oil Land and Development Company, of the Fresno-San Benito district is a close corporation.

The people interested in comprising the company are principally Southern Pacific Railway employes who more than a year ago, when the Southern Pacific railway oil land expert passed upon this district for the purpose of withdrawing the company's oil land from the market, took advantage of the opportunity to purchase upwards of a thousand acres of land, comprising the whole of section 1, 17-12.

Being in a position to know of its value as oil bearing land, some of the members of the corporation being familiar with the district and having been over the land, knew its important relation to land upon which seepages were to be found. These indications were clearly shown by the State Mineralogist's bulletin, issued in 1893, where it is listed as petroleum bearing land.

Mr. C. C. Crowley, one of the incorporators, has been through this section of the country repeatedly in his work for the railroad company. He has known for some few years past the value of the land and was largely instrumental in enlisting in the procurement of the land the following named persons who make up the Toomey Creek company:

R. E. Montgomery, secretary to Man-

Creek company:
R. E. Montgomery, secretary to Manager J. A. Fillmore, S. P. Co.
Frank C. Fabens, confidential clerk to
Manager J. A. Fillmore, S. P. Co.
Doctor George B. Hoagland, physician Parkeley cian, Berkeley.

ers and the superior quality of oil found therein.

therein.

Many railroad leases are being sought for by persons desirous of getting in on the ground floor. As many companies are now drilling in this district, it is reasonable to expect some encouraging the many floor than the very near them. accounts from them in the very near future.

THE RILEY OIL AND DEVELOP-MENT CO., has 659 acres in the Vallecitos district of San Benito county only a short distance from the famous San Carlos well. The directors of the company are well known business men of San Jose, The secretary of the company is E. E. Magee, and the office is with the Riley Drug Co., at 2d and Santa Clara avenues.

Santa Clara avenues.

The New York Oil Syndicate has purchased 80 acres in the Coalinga district 20, 19-14. They have also bonded 80 acres more in the same section. R. H. Larsen, the president of the company is also looking up some land in the Kern River district. The office of the company is at 214 Pine street, San Francisco.

THE WORLD PETROLEUM CO. controls 2300 acres in the San Benito-Fresno oil belt. Its property lies in 14-10 and 14-11 and is practically all in Fresno county. The location abounds in oil sand, salt and lime. Small oil seepages ooze from the foothills at many places and make the management feel confidnt of generous returns for their effects of the confidence of generous returns for their effects of the confidence of generous returns for their effects of their effe dent of generous returns for their ef-

GEYSER OIL COMPANY.

This company has forty acres of land in the heart of the Sunset district, Kern county. The land has been ab-solutely proven by surounding develop-

tt on 800 acres in San Luis Obisity in township 32 south, 14 east dett Chandler and A. B. Hasand will organize a company. Ackerman has shown a sample oil which has come from this y and which is exceptionally in asphaltum, running to 30

VEY IN LOCAL QUARTERS.

Dabney Oil Company, fafor the immense productiveof its property in the Mcck district, has incorporated
the laws of Arizona, and has
I offices in this city at 330
Street. The policy of this
my is at variance with the
plan of operations in that it
ot incorporate until at had
vells completed and producing.
property is situated the gushell of which so much has been
md which is equal to anything
e state.

e property, owned by the Dab-Jompany consists of 110 acres e most productive portion of istrict. It is located immediabove the village of McKitsoon, judging from procent

to place upon the market a limited number of its shares. This stock is now easily worth its full par value, and should, in the near future, be selling at two to three times that figure. There is already an active demand for the Dabney shares, and present indications justify the belief that the block of stock now offered will soon be exhausted.

The articles of incorporation of the Dabney Company were prepared with the utmost care by Judge Edward A. Belcher, who has given his personal attention to all the details of organization. By express provision of the law of Arizona and the articles of incorporation, the capital stock can not be assessed.

THE LOS ANGELES EXTENSION.

The western extension of the Los Angeles field embraces that portion of the oil district which lies outside of the city limits of Los Angeles. It begins with the bunch of wells owned by the Los Angeles Oil and Transportation Company, on Vermont Avenue, between Fourth and Temple Streets. This district extends in a northation for about two

The Johnson well, near the corner of Western and Melrose Avenues, reached oil at 200 feet. This well is only 600 feet from the holdings of the Dey Crude Oil Company, which has just commenced drilling on its property in this district.

Having a steam railroad on Western Avenue and an electric passenger and freight railroad half a mile above Melrose Avenue, affords a splendid opportunity to market its oil. Los Angeles is a great field for consuming oil, not having to look for outside territory in which to place its production.

happen, and from whom trouble rolls country seat worthy of Monte Cristo, away as readily as the rippling waters of the brook go singing on their way unmindful of the pebbles that they pass over and around to reach the end of their journey. Everybody loves them and praises them for their goodness; but, Polly, between you and me, they don't deserve half the credit that unfortunates like myself do, and yet even our own, who know the circumstances of our unenviable disposition, have no patience with us. So mote it be. But I comfort myself by thinking that earthly judgments are not final, but there is a higher power who knows and understands our trials and tribulations and our efforts to do right, and when the final day of reckoning comes He will judge us leniently and wisely, for I honestly believe we have done the best we could under the circumstances, and I try not to fret over my ugly disposition any more than I can help, for I know that I am not the only one that is blessed with such a heritage but have plenty of just such unfortunates to keep me company."

the truth when she said she had plenty of company. Her sorrowful little history brought to mind a conversation I once had with a lady who spent much of her time in visiting the jails and frequently the penitentiaries. She had just returned from one of the latter heart was filled to overflowing with the miseries of some of the occupants who were enduring punishment and humilblasted by the result of this inheritance -a quick temper. "It would make your heart ache, Polly, to talk to some of these men," she said, "for there are some of the Japanese railroads.

which 600 workmen are now engaged in beautifying. It contains costly fountains and statuary brought from Italy. Wright's stables alone cost a small fortune. They have upholstered oak and leather settees and polished gunmetal fittings, while valuable paintings and bas reliefs adorn the stalls. His private yacht is fitted up with similar luxuries. Everything he owned had to be of the best. To gratify this desire there was no stint in expenditure.

Boy Manuscript Reader.

The youngest reader of manuscript in New York city is the grandson of a partner in a big publishing house. For the last three years, and he is now only 16 years old, he has read manuscripts, chiefly boys' stories, and his judgment has been verified by the success of the books which he has accepted. One would naturally expect that a boy would be the best judge of a boy's story, but no other publishing house has submitted such manuscripts to boys. The readers for most of them are men. This young reader is still in school, and "An honest confession is good for the when he finishes his studies he is going soul," thought Polly, and she uttered into his grandfather's house to begin at the bottom and work his way up.

The last instance of boiling to death took place in Persia in 1890. The offender, who was found guilty of stealing State revenues, was put into a large caldron of cold water which was slowly places one day, and her sympathetic heated to the boiling point. His bones were distributed, as a warning, among assault the provincial tax collectors.

In 1899 the United States produced iation and whose lives were forever 32 per cent of the world's coal, 30 per cent of its iron and 40 per cent of steel.
